

The Pines Master Planned Community, Yeppoon

A place to call home

Open the door to a lifestyle

The Pines is a master planned residential community offering a landmark address for the Capricorn region.

A master planned community is one that is specifically designed for the community that will call it home – where lifestyle and convenience are planned and your needs and wants are counted. The estate will offer a highly aspirational lifestyle, with residents enjoying onsite access to parks, kids playgrounds, walking and bike paths, recreation facilities, retail stores, childcare and more.

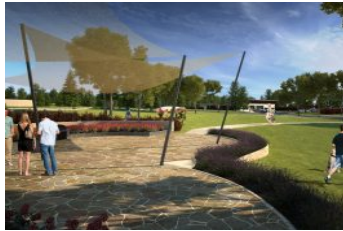

Located at the gateway to the stunning Capricorn Coast, The Pines estate is just five minutes from magnificent tropical beaches and the centre of Yeppoon. Plus the region's capital, Rockhampton, is a short 25 minute drive.

The Pines is quite simply one of the most significant residential property developments ever seen on the Capricorn Coast.

Eventually home to 3000 people this master planned community features a relaxed coastal lifestyle that will be the envy of your friends and family.

The Pines features more than 20ha of open space, parks, lake, recreational and bbq areas, several kilometres of walkways and spectacular play areas for children and teens.

For the active and young at heart there are all weather multipurpose sports pitches for soccer, tennis, basketball and hockey. You can paddle board, canoe and fish on the lake and when finished warm up on the outdoor fitness equipment.
